

Shopify DirectConnect

OVERVIEW

In8Sync Shopify DirectConnect is a fully-featured, out-of-the-box solution to natively and seamlessly integrate a company's NetSuite applications with its Shopify or Shopify Plus e-commerce system.

KEY FEATURES

- Support for all item types and price levels. Stock levels updates. Real-time item/product sync.
- Search for existing or conditionally filter customers. Bi-directional customer sync.
- Item fulfillment and tracking updates to Shopify.
- Bi-directional syncing: real-time, on-demand & scheduled. No external integration platform means superior
- High performance, simple install, minimal management and lower cost.
- Easy to install
- 24/7 managed support from In8Sync

DIFFERENTIATORS

With In8Sync, there are no system constraints on the way you do business. Other solutions run on an external integration platform, In8Sync Shopify DirectConnect is natively built into NetSuite. This offers superior system performance, dramatically reduces the time and skill required to manage the system, and saves a lot of money.

"In8Sync did our Shopify integration. We're so satisfied, we continually hire them for advanced NetSuite scripting."

- Tony Nungaray
IT Administrator, Workwell

**Native Bundle to Integrate
Shopify and NetSuite**

HOW NETSUITE IS EXTENDED

- Two-way, bi-directional syncing with the Shopify API
- NetSuite Bundle manages entire integration
- 1:1 mapping engine
- Fully configured within NetSuite

In8Sync is a world-class provider of NetSuite solutions. Headquartered in Aspen, Colorado, and with locations around the world, In8Sync's in-house engineers use their deep technical expertise to help and provide 24/7 support to clients globally.
