

# WooCommerce DirectConnect

## OVERVIEW

In8Sync WooCommerce DirectConnect is a fully-featured, out-of-the-box solution to natively and seamlessly integrate NetSuite applications with a WooCommerce e-commerce system.

## KEY FEATURES

- Complete product data support. Stock level updates for one or many locations.
- Multi-address, multi-currency and shipment tracking support.
- Advanced customer/contact search and sync.
- Automate cash sales and/or invoices.
- Fully-featured B2B customer portal.
- No external integration platform means superior performance, simple install, minimal management and lower cost.
- Easy to install in 1 to 2 hours.
- 24/7 managed support from In8Sync.

## DIFFERENTIATORS

With In8Sync, there are no system constraints on the way you do business. Other solutions run on an external integration platform, In8Sync WooCommerce DirectConnect is natively built into NetSuite. This offers superior system performance, dramatically reduces the time and skill required to manage the system, and saves a lot of money.

**"In8Sync is our integration lifeline! I recommend this dynamic group to anyone looking to improve their customers' buying experience."**

- Stephen Phillips  
Software Manager, Scheduling Institute

## HOW NETSUITE IS EXTENDED

- Two-way, bi-directional syncing with WooCommerce API
- 1:1 mapping engine
- Advanced NetSuite Bundle
- Fully configured within NetSuite and WooCommerce

In8Sync is a world-class provider of NetSuite solutions. Headquartered in Aspen, Colorado, and with locations around the world, In8Sync's in-house engineers use their deep technical expertise to help and provide 24/7 support to clients globally.
